Sathwik Polu

Hyderabad, India | Open to Relocation | Phone: +91 7702603656
Email: sathwikpolu09@gmail.com | LinkedIn: linkedin.com/in/sathwik-polu-41716b236

Professional Summary

Entry-level Software Engineer with strong foundations in programming, data structures, and software development principles. Experienced in designing, developing, and deploying end-to-end product development solutions using Python, SQL, and basic JavaScript. Strong understanding of Software Development Life Cycle (SDLC), debugging, testing, code optimization, and working with written specifications to build scalable applications. Possess strong analytical skills and communication skills, with the ability to perform effectively in fast-paced development environments.

Technical Skills

Programming & Databases: Python, SQL, MySQL
Data Analysis Libraries: Pandas, NumPy
Visualization & BI Tools: Power BI (DAX, Data Modeling, Relationships), Tableau, MS Excel (Pivot Tables, XLOOKUP, INDEX-MATCH), Tableau
Other Tools: Flask, Git (Basic)

Projects

Player Performance Analysis & Player Value Index (PVI) Prediction
Tools: Python, SQL, Excel, Power BI

- Cleaned and standardized 2,000+ IPL player records (2021–2025) to create an analysis-ready dataset.
- Performed EDA to evaluate player consistency, strike rate impact, bowling economy, and season-wise performance.
- Developed a custom Player Value Index (PVI) integrating multiple KPIs into a composite performance score.
- Designed interactive Power BI dashboards enabling dynamic filtering and player comparison.
- Reduced manual analysis effort by approximately 30% through automated data processing and visualization.

Disease Prediction System Using Machine Learning
Tools: Python, Decision Tree, Flask

- Pre-processed and validated 200 healthcare records to improve model reliability.
- Implemented a Decision Tree classification model for symptom-based disease prediction.
- Achieved approximately 85% predictive performance during testing phase.
- Deployed the model using Flask for real-time user input and prediction interface.
- Delivered an end-to-end ML pipeline from data cleaning to deployment.

Education

B.Tech – Computer Science and Engineering
SR University, Warangal (2021 – 2025)
CGPA: 7.53 / 10
Intermediate (MPC) – 89.4%
SSC – 87%

Certifications

IBM – Data Analysis with Python
IBM – SQL and Relational Databases 101
CISCO – Data Science Essentials with Python

ADDITIONAL STRENGTHS

- Strong analytical skills and logical reasoning
- Effective communication skills (written & verbal)
- Ability to work in fast-paced development environments
- Team collaboration and adaptability
